Dear Families and Friends:

The Office of Mental Retardation and Developmental Disabilities recently learned that the Division of Housing & Community Renewal's (DHCR) Weatherization Assistance Program has funds available for homeowners to reduce the amount of energy required to heat homes and provide hot water. The New York State Weatherization Assistance Program is the largest residential energy conservation program in the country.

The Weatherization Assistance Program services might include, but are not limited to:

- weatherstripping and caulking around doors and windows;
- cleaning, testing, repairs or replacement of heating systems;
- replacement or repair of storm windows;
- replacement or repair of broken windows and/or outside doors;
- the addition of insulation to walls or ceilings;
- minor repairs, as needed, to ensure the maximum efficiency from weatherization services performed.

Eligibility is based on household income relative to federal low-income guidelines. If a household contains a member who receives Supplemental Security Income, Public Assistance, Food Stamps, or Home Energy Assistance Program benefits, the household is considered automatically eligible for weatherization services.

To apply for the weatherization program contact the local service provider in your area. Local Weatherization Assistance Providers are appended to this letter or you can call or write to one of the DHCR Community Development Regional Offices listed below:
